

### Silvan

Inspired by a lily and its sinuous shape that retains water, Silvan is a hand-blown venetian glass vase available in two heights, 38 and 26cm, in shaded pink or shaded amethyst.

### Coral

Inspired by coral and its characteristic twisted shapes, the organic form of the Coral vase looks like it has been molded by the sea's currents. The vase is in hand-blown venetian glass with a textured net finish reminiscent of a coral's irregular and rough surface. It is available in two heights, 41 and 34 cm, in amethyst, green and pale pink.

### Jelly

Like a bright coloured jellyfish, the Jelly vase plays with light, transparency and lightness. Made in hand-blown venetian glass, it is available in h.16cm in transparent amethyst or smoked glass.

### Bomaki

Bomaki is an oriental-inspired vase with a simple shape in exotic colours that reflect through the transparent glass. It is available in two heights, 30 and 14cm, in transparent amethyst and transparent green glass.
